

# EPiC Diabetes

Anna Mickell  
Programme Manager

## What interests you?

<u>Background</u> Who are we?	<u>Related education</u> (audits, reflections)	<u>Getting involved</u> (requests for product development)	<u>Data stories and methodology</u>
<u>WHAT DOES IT DO?</u>		<u>Getting access</u>	<u>Use in my organisation</u>

## Purpose

- Allows prescribers to interpret and reflect on their prescribing data
- Assists targeting for intervention
- Rewards by streamlining collection of CPD data

[Visit EPiC Diabetes](#)

## Background

- Published by He Ako Hiringa (The Health Media and Airmed)
- Funded by PHARMAC under the Responsible Use of Pharmaceuticals in Primary Care contract
- Independent advisory group of 10, with PHARMAC appointed chair (Sean Hanna)
- Contracted to provide primary care education and data analytic tools

## Data stories and methodology

[Visit He Ako Hiringa](#)

- Data stories and methodology information sheets are on He Ako Hiringa website
- Sector or SME contribution to development encouraged

## Related education

[Visit He Ako Hiringa](#)

- He Ako Hiringa Applied – Quality Improvement Activity (QIA) using EPiC Diabetes and Medtech32 or Evolution
- EPiC Reflect – short format reflection tool to capture reflection on individual prescribing data and earn CPD points
- Available in the education section of the [He Ako Hiringa site](#).
